952-300-1336 • Carver, MN • maddisonbruckelmyer01@gmail.com

Insightful strategic leader experienced in developing and implementing solutions to **complex business problems** with a focus on approaches that improve the customer experience. **Skillful communicator** with experience liaising between clients and gaining an in-depth understanding of organizational objectives.

PROFESSIONAL EXPERIENCE

Junior Software Developer

July 2020 - February 2021

Reviir Development | Burnsville, MN

- Created Vue.js pages for an existing application
- Created wireframes and storyboards
- Set up Azure Devops
- Updated and refactored existing applications with JavaScript
- Worked in different phases of project life cycle (design, development and testing of application)
- Developed iOS and Android applications using C#, with Xamarin
- Used Xamarin.iOS and Xamarin.Android for creating native user interface
- Created and updated existing Xamarin.Forms UI

Full Stack Software Development Student

June 2019 - October 2019

Prime Digital Academy | Minneapolis, MN

- Used PostgreSQL to create databases for both Konnections and the Woodbury Community Foundation
- **Solo Projects: Konnections**
 - Created an application to connect foster children to one another
 - Konnections allows foster children to chat with each other on messaging boards
 - The users will be able to send direct messages to another user
 - They will also have access to a few online free counselors
 - Technologies used:
 - ReactJS, JavaScript, Redux, Chance.js, Material-UI, Express, Postgresql
- **Group Project: Woodbury Community Foundation**
 - Created an application to connect volunteers and nonprofits
 - This application allows nonprofits to post their events and details about their nonprofit
 - Volunteers are able to sign up for volunteer positions posted by the nonprofits
 - Technologies used:
 - ReactJS, JavaScript, Redux, Express, Postgresql, Material-UI, Postgresql
